The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The products should be recited as "a polysubstituted fused bicyclic compound containing a benzene or a pyridine ring as one of the fused rings".

Claims 3-6 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 2-5 of prior U.S. Patent No. 6,743,916. This is a double patenting rejection. Instant claim 3 is the same as claim 2 of the patent. It must be canceled and the dependency of claims 4-6 on it must be removed.

Claims 1 and 2 are deemed allowable.
